Key Type General Information account binding keys (MacOS® & PC) vs. non-binding account keys (PC only):

* account binding key: activation is 100% over the internet & includes one-time transfer rights to a new PC with removal of the original software. Re-use to the original PC is unlimited, by accessing the license in the original Microsoft® account. Original keys provided are the redemption keys and the final assigned software key is visible in the Microsoft® account after redemption.

** non-binding account keys: may require activation by phone and re-use is only by an image backup and restoral to the original PC with no major hardware changes.

*** all Microsoft® Office esd's are backed by a 48-hour warranty for a successful activation by internet or phone beginning from the original time of the email digital delivery. This does not mean it will not activate past this time, but we do not provide an activation warranty after this period. It is recommended to order on an on-demand basis. Our normal delivery time is one hour or less.
